Our Vision

To make the institution a pioneer in the field of Engineering, Technology and Management Education with a commitment for development of the individual and the society as a whole.

EASA College of Engineering and Technology was started during the year 2008 with four undergraduate courses in Engineering. Today, the institution is offering Fourteen courses. What makes EASA different is the state of the art and modern well - equipped laboratories for all departments. The Library has up-to date inland and international journals equipping the students with knowledge on latest technologies.

EASA insists on in-house placement training and the focus is on ensuring students placement before they leave the Institution. There is a separate department for corporate relations, learning, development and placement.
